

Toontown Rewritten Development: Game Programmer Application

Thank you for showing interest in becoming part of the Toontown Rewritten Team! Before you start filling out this application, there are a few things you should know:

1. **Toontown Rewritten is a volunteer effort.** No income or salary is provided as compensation for anyone's involvement.
 2. **Game Programmers are involved with many aspects of the game.** In addition to the game itself, programmers are involved with the development of our website, launcher, and other various projects to keep the game running.
 3. **Toontown Rewritten is primarily written in Python.** Some of our services use languages such as Java and C++, but almost everything a Game Programmer writes is in Python.
 4. **We enforce professional programming standards.** As programming is a highly collaborative effort, you will be asked to keep your work clean and understandable. You may be asked to make multiple revisions to your code before it is accepted.
-

As a Game Programmer for Toontown Rewritten, you will be working with the game directly to implement content, introduce bug fixes, and provide technical assistance for issues relating to the game's function. You may also be contributing to brand new mechanics and gameplay where creativity is your greatest asset.

We are searching for programmers who have not only the understanding necessary to implement ideas, but the creativity to approach difficult problems with unique solutions.

Position Requirements:

- Must be at least 13 years of age.
 - Have firm understanding of fundamental programming concepts.
 - Know the Python programming language on at least an intermediate level.
 - Have basic knowledge of the [Panda3D Game Engine](#).
 - Must be the primary owner of the computer used for sharing confidential files.
 - Have sufficient time to dedicate for communication and discussion on top of the time used for programming.
-

Toontown Rewritten Development: Game Programmer Application

The application begins below.

Copy & Paste the questions with your answers in an email to support@toontownrewritten.com.

About You

- What is your first name, and preferred name?
- What is your date of birth?
- Is English your first language?
- Are you comfortable with using voice chat?
- Can you tell us a bit about yourself?
- Have you worked in a team environment before?
- If so, how would you describe your experience on that team?
- What do you think you can bring to the table as a programmer?

Toontown

- Please list your Toontown Rewritten account username(s).
- Do you have any previous infractions (warnings, suspensions, terminations, loss of ability to use SpeedChat+ or submit names) on any of your accounts? If so, what are they?
- How often do you play Toontown Rewritten?
- Are you an active member of any Toontown-related websites or communities outside of the game? If so, where can we find you? Direct links to your profiles would be great!

Technical Experience

- Do you have any previous experience with Game Development?
- Would you consider yourself as a beginner, intermediate, or as an expert when it comes to programming experience?
- What experience do you have with Python?
- Have you worked with [Panda3D](#) or [Astron](#) before?
- Are there any other programming languages or technologies you have experience with?
- Are you familiar with Git (or any other source control system)?
- Do you have a GitHub profile or any other place where we can see your previous contributions? We would be glad to see any of your previous technical work!
