

## Toontown Rewritten Development: Web Developer Application

---

Thank you for showing interest in becoming part of the Toontown Rewritten Team! Before you start filling out this application, there are a few things you should know:

1. **Toontown Rewritten is a volunteer effort.** No income or salary is provided as compensation for anyone's involvement.
  2. **Web Developers will need to work with both frontend and backend services.** In addition to working on front end design, Web Designers will need to work on the core backend services that make our website function.
  3. **Our websites are written in several different languages.** While HTML and CSS form the base layout and design of websites, some of our backend systems are written in Java, PHP, and Python.
  4. **We enforce professional programming standards.** Since you won't be the only one managing the code, you will be asked to keep your work clean and understandable. You may be asked to make multiple revisions to your code before it is accepted.
- 

As a Web Developer for Toontown Rewritten, you will be working with our main website and several internal services to create tools that can be used by our moderators, developers, and support agents to manage the game from a web interface. These tools must be secure and easy to use, and preferably pleasing to the eye.

We are searching for web developers who are up-to-date on the latest standards for programming and security, as well as have the creative flair for front end work when necessary.

### Position Requirements:

- Must be at least 13 years of age.
  - Firm understanding of fundamental programming concepts.
  - Extensive knowledge of web programming languages and frameworks.
  - Ability to go from a mockup to an accurate completed design in a timely manner.
  - Understanding of web tools such as node.js, Django, and Play Framework.
  - Knowledge of Python and Java programming languages on at least a beginner level.
-

The application begins below.

Copy & Paste the questions with your answers in an email to [support@toontownrewritten.com](mailto:support@toontownrewritten.com).

---

### About You

- What is your first name, and preferred name?
- What is your date of birth?
- Is English your first language?
- Are you comfortable with using voice chat?
- Can you tell us a bit about yourself?
- Have you worked in a team environment before?
- If so, how would you describe your experience on that team?
- What do you think you can bring to the table as a web developer?

### Toontown

- Please list your Toontown Rewritten account username(s).
- Do you have any previous infractions (warnings, suspensions, terminations, loss of ability to use SpeedChat+) on any of your accounts? If so, what are they?
- How often do you play Toontown Rewritten?
- Are you an active member of any Toontown-related websites or communities outside of the game? If so, where can we find you? Direct links to your profiles would be great!

### Technical Experience

- What does your previous experience with Web Development entail? Please elaborate with as much detail as possible.
- Would you consider yourself as a beginner, intermediate, or as an expert when it comes to programming experience?
- Do you have any experience with Python and/or Java?
- Have you worked with Django or Play Framework before?
- Are there any other programming languages or technologies you have experience with?
- Are you familiar with Git (or any other source control system)?
- Do you have a portfolio website or any other place where we can see your previous projects? You can also attach screenshots to this email.
