

PROGRAMMING DEPARTMENT

Game Programmer Application

Thank you for showing interest in becoming part of the Toontown Team! Before you start filling out this application, there are a few things you should know:

1. **Toontown Rewritten is a volunteer effort.** No income or salary is provided as compensation for anyone's involvement.
 2. **Our game is primarily written in Python.** Some of our services use languages such as Java and C++, but almost everything a Game Programmer writes is in Python.
 3. **Game Programmers are involved with many aspects of the game.** In addition to the game itself, programmers are involved with the development of other internal services to keep the game running.
 4. **We enforce professional programming standards.** Since you won't be the only one managing the code, you will be asked to keep your work clean and understandable. You may be asked to make multiple revisions to your code before it is accepted.
 5. **In-game activity is considered.** We are looking for Game Programmers who actively play Toontown Rewritten. We are looking for applicants who have at least one month of consistent gameplay when we receive and review their application.
-

ABOUT THE ROLE

As a Game Programmer for Toontown Rewritten, you will be working with the game directly to implement content, introduce bug fixes, and provide technical assistance for issues relating to the game's function. You may also be contributing to brand new gameplay where creativity is your greatest asset.

We are searching for programmers who have not only the understanding necessary to implement ideas but the creativity to approach difficult problems with unique solutions.

POSITION REQUIREMENTS

- Must be at least 16 years of age.
- Must have a Toontown Rewritten account that is at least six months old and at least one Toon that has completed the Minnie's Melodyland taskline.
- Have a firm understanding of fundamental programming concepts.
- Know the Python programming language on at least an intermediate level.
- Have basic knowledge of the [Panda3D Game Engine](#).
- Must be the primary owner of the computer used for sharing confidential files.
- Be recently active in-game or in the community for at least one month. This means showing activity for at least a couple days each week for a period of at least one month.

To submit your application, please copy the questions below into an email (and answer them, of course!) then send your email to support@toontownrewritten.com. After we receive your email, we'll follow up within a few days and will file away your information until the position is open for recruitment.

ABOUT YOU

- What is your full first and last name, preferred name, and preferred pronouns?
- What is your date of birth?
- What language(s) do you speak fluently?
- Do you have a Discord account? If so, what is your username?
- Can you tell us a bit about yourself?
- Can you tell us about your experiences working in a team environment? What did you learn from your experience(s), and what values do you believe are most essential to effective teamwork?
- Why do you want to be a Game Programmer?
- What do you think you can bring to the table as a Game Programmer?

TOONTOWN

- Please list all of your Toontown Rewritten account username(s).
- Do you have any previous infractions (warnings, suspensions, terminations, loss of ability to use SpeedChat+ or submit names) on any of your accounts? If so, what are they?
- How often do you play Toontown Rewritten?

- Are you an active member of any Toontown-related websites or communities outside of the game? If so, where can we find you? Direct links to your profiles would be great!
- How did you hear about Toontown Rewritten hiring?
- Are there any other positions you are interested in other than the one you have applied for? If so, list all that apply.

TECHNICAL EXPERIENCE

- Do you have any previous experience with Game Development?
- Would you consider yourself as a beginner, intermediate, or as an expert when it comes to programming experience?
- What experience do you have with Python?
- Have you worked with [Panda3D](#) or [Astron](#) before?
- Are there any other programming languages or technologies you have experience with?
- Are you familiar with Git (or any other version control systems)?
- Do you have a GitHub profile or any other place where we can see your previous contributions? We would be glad to see any of your previous technical work!

AVAILABILITY

- What timezone are you in?
- When are you usually available on your computer?
- How much time can you commit to your job as a Game Programmer per week?

Thank you for taking the time to apply for Toontown Rewritten!

You ARE Toon Enough!
